Radius™ VINYL FLOORING

Radius™ COLLECTION

The Radius™ Collection offers a wide selection of wood and stone visuals to fit any aesthetic need. It is the ideal flooring product for a variety of applications, including, but not limited to, corporate and medical office spaces, retail and residential. Our durable wear layer topped with a UV-cured ceramic-reinforced polyurethane finish provides maximum durability while ensuring long lasting beauty without the use of an on-site finish. Proudly made in the USA, the Radius™ Collection is produced and inventoried for quick turnaround times.

With a variety of complementary color selections and patterns, you're just a few steps away from *durability and beauty in one affordably priced package.*

The Six Degrees of Radius™ VINYL FLOORING

- A designer-inspired palette of colors and patterns, all at a single price point
- Enhanced performance and durability made possible by the addition of our Ceramic Reinforced Urethane (CRU)
- A lower maintenance flooring option which does not require a finish
- An eco-friendly product made from locally sourced raw materials
- Simple glue down installation allows for greater pattern/design flexibility
- Readily available ... made and inventoried in the USA!

With a variety of style options and the eco-friendly nature of Radius™, you're just a few steps away from *a floor that delivers the utmost in design and performance.*

FLOORING SURFACES™

○ The Six Degrees of Sustainability

At Six Degrees, we are dedicated to the environment and work tirelessly to provide LVT products that are not only beautiful, but durable and eco-friendly, as well. We are proud to be a strong environmental steward and continue to work to improve upon our sourcing and production practices, offering additional satisfaction that you have selected a floor with the environment in mind.

With Radius™ Vinyl Plank and Tile, you're just a few steps away from *creating a more eco-friendly environment inside and out.*

- Over 50% of our raw materials are sourced within a 100 mile radius of our manufacturing facility.
- Our floors are 100% recyclable after use, which means even when your life with the floor is complete, a new product can be created... and that means less waste in landfills.
- Because all Six Degrees products are proudly manufactured in the USA, there is less carbon footprint than most LVT options. Less transport and fuel costs are needed to get your new flooring to you, our valued customer.
- Our products do not require an additional finish, which means less chemicals, less water and less energy are needed to maintain them and keep them looking beautiful.
- Six Degrees uses only 100% virgin vinyl materials. There is no recycled content and therefore no need to worry about contaminants in your flooring.
- Only Non Phthalate plasticizers are used in the production of our floors. Six Degrees was the first in the industry to make this important change.

Technical

FEATURES

- Easy to Maintain
- Qualifies for LEED® Credits
- FloorScore® Certified
- Ceramic-Reinforced UV-Cured Finish
- Enhanced with EnviroSD™ Anti-Bacterial Agent
- Extremely Durable
- Excellent Indentation Resistance
- Excellent Chemical Resistance
- Excellent Slip Resistance
- 100% Recyclable

RADIUS™ PLANK SPECIFICATIONS

Nominal Dimensions: 7-1/8" x 47-1/4" x 3 mm plank
 Finish: Embossed 12 mil
 Quantity Per Carton: 15 planks (7-1/8" x 47-1/4")
 Sq. Ft. Per Carton: 34.84 sq. ft./carton
