Compass™ VINYL FLOORING

The Six Degrees of **Compass**TM VINYL FLOORING

- 48 designer-inspired colors and patterns, all at a single price point
- A 28 mil wear layer enhanced with the addition of our UV Cured, Ceramic-Reinforced Urethane finish makes it the ideal choice for heavy commercial traffic areas such as hospitals and retail
- A lower-maintenance flooring option which does not require a finish
- An eco-friendly product made from locally sourced raw materials
- Simple glue down installation allows for greater pattern/design flexibility
- Readily available ... made and inventoried in the USA!

HC HIGH CONTRAST VISUALS

Many of the Compass visuals are high contrast visuals, and therefore not all colors and/or textures represented in the full design will be visible in this brochure. Items marked with the **HC** symbol are considered high contrast. We suggest visiting www.sixdegreesflooring.com to view full size and room scene visuals of these designs. You may also email support@sixdegreesflooring.com to order full-size samples.

Compass™ COLLECTION

Where will your design direction take you? Somewhere clean and modern? Perhaps bold and bright? How about soothing and comfortable? The choice is yours, and with 48 designer-influenced colors, you may have a hard time deciding where you want to go. Proudly made in the USA, the Compass™ Collection is heavily inventoried and ready to ship, so you can get where you want to go on time.

At Six Degrees, we are here to help, *so Let Our Compass™ Be Your Guide.*

HC HIGH CONTRAST VISUALS

Many of the Compass visuals are high contrast visuals, and therefore not all colors and/or textures represented in the full design will be visible in this brochure. Items marked with the HC symbol are considered high contrast. We suggest visiting www.sixdegreesflooring.com to view full size and room scene visuals of these designs. The Six Degrees of Sustainability

At Six Degrees, we are dedicated to the environment and work tirelessly to provide LVT products that are not only beautiful, but durable and eco-friendly, as well. We are proud to be a strong environmental steward and continue to work to improve upon our sourcing and production practices, offering additional satisfaction that you have selected a floor with the environment in mind. With Compass™ Vinyl Plank and Tile, you're just a few steps away from *creating a more eco-friendly environment inside and out.*

- Over 50% of our raw materials are sourced within a 100 mile radius of our manufacturing facility.
- Our floors are 100% recyclable after use, which means even when your life with the floor is complete, a new product can be created... and that means less waste in landfills.
- Because all Six Degrees products are proudly manufactured in the USA, there is less carbon footprint than most LVT options. Less transport and fuel costs are needed to get your new flooring to you, our valued customer.
- Our products do not require an additional finish, which means less chemicals, less water and less energy are needed to maintain them and keep them looking beautiful.
- Six Degrees uses only 100% virgin vinyl materials. There is no recycled content and therefore no need to worry about contaminants in your flooring.
- Only Non Phthalate plasticizers are used in the production of our floors. Six Degrees was the first in the industry to make this important change.
