**NOTE:** When using alternative products, be sure to consult specific product technical data, installation instructions and/or product manufacturer prior to installation and be sure to follow all manufacturers' guidelines for installation. Approval of use with particular flooring material must come from product manufacturer. When alternative products are used, Six Degrees is only responsible for warranty claims and technical support related to the flooring materials and any/all Excelsior Installation products used. Six Degrees is not responsible for technical support or warranty claims related to any and all alternative products. As such, **all** warranties and technical support related to alternative products must come from the alternative product manufacturer or distributor. Alternative products cannot be substituted for Excelsior Installation Products within the Excelsior system if an Extended System Warranty is desired.
